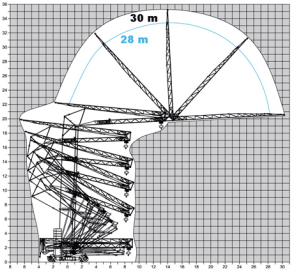
• Technology and solutions for the best efficiency.
Tecnologia e soluzioni per la massima efficienza.

• AUTO-SELECT + VARIOMATIC:
Hoisting speed smart control: automatic speed choice according to load weight. Micro-speed and electronic fine adjustment control for all movements.
Gestione intelligente della velocità di sollevamento: scelta automatica in rapporto al peso del carico. Tutti i movimenti con micro-velocità e controllo elettronico.

• X Type:
3 additional operation programs with 230 V single-phase power supply. 3 - 4.5 - 6 kW power and 2.3 t max load always available. Supply flexibility and wide range of speeds.
Tipo X: Pacchetto di 3 programmi di funzionamento aggiuntivi per alimentazione con corrente monofase a 230 V. 3 - 4,5 - 6 kW di potenza e 2.3 t di carico massimo sempre disponibili. Flessibilità di alimentazione e ampia gamma di velocità.



• ASD (All Systems Down):
Motors and microswitches at ground level: maintenance and checking on erected crane.
Motori e finecorsa nella parte bassa della gru: manutenzione e controllo a gru elevata.

crane and complete ballast on 1 truck
gru e zavorra completa su 1 camion
